- SQL (intermediate)
- Project Management
- Unity Game Engine (intermediate)
- English (intermediate)

CERTIFICATES

Python: With Ethical Hacker Examples

Atıl Samancıoğlu 19.08.2025

Introduction to Forensic Computing

BTK Academy 17.07.2025

Becoming an Ethical Hacker Course

Atıl Samancıoğlu 18.05.2025

IT Law

BTK Academy 17.04.2025

Project Management

Coursera 07.09.2024

Google AI and Technology Academy Graduation

Google 16.08.2024

Version Control: Git & GitHub

BTK Academy 16.02.2024

ABOUT ME

I am a 4th-year Computer Engineering student at Pamukkale University. I am a graduate of the 3rd term of the Google AI and Technology Academy. I am developing myself in the field of cybersecurity. I have produced projects on network scanning, MAC address changing, and security testing by developing Python and Linux-based tools. As a hobby, I am also interested in game development.

EDUCATION

PAMUKKALE UNIVERSITY

Computer Engineering
2022-2026

GOOGLE AI AND TECHNOLOGY ACADEMY

Trainee
2023-2024

WORK EXPERIENCE & PROJECTS

Cyber Security Tools

Individual Project

2025

- These are various tools I have developed for Windows and Linux devices.
- They include various programs such as a network scanner and a MAC address changer.

github.com/omerfarukbaysal04/Cyber-Security-Tools

Portfolio Web Site

Individual Web Site

2025

- This is a portfolio website I created using React.
- It is a website showcasing all the projects I have worked on.

Book Display

University Course Project

2025

- This is a project assignment for the Web-Based Technologies course.
- MSSQL was used as the database, ASP.Net Core for the backend, and React for the frontend.
- The goal of the project is to display books to users in the easiest way possible.

github.com/omerfarukbaysal04/Kitap-Vitrini

Personal Game Projects

Google AI and Technology Academy & Individual

2023-2024

- The four game projects I have created using the Unity and C# knowledge I acquired at the academy are included. These projects are at a basic level, and one of them has been published on the Google Play Store.
- These games are A Fox Story, Glide Ball, Dodge the Asteroids, and Cost of Redemption, and they are 2D Pixel Art concept games.
